Supporting local

By making use of locally produced fabric (shweshwe).

Manufactured by our local community-based seamstresses

Shweshwe: is a printed, dyed cotton fabric widely used for traditional Southern African clothing. The genuine product can be recognised by feel, smell, taste, sound, and a trademark logo on the reverse side of the fabric. The trademarked fabric has been manufactured by Da Gama Textiles in the Zwelitsha township outside King William's Town in the Eastern Cape since 1982.
