## **Custom Tours** **Our most popular safari!**

Your African tailor made safari is custom-built to suit your wishes. You tell us what you would like to do, your preferred type of accommodations, approximate budget and dates of travel. We take care of all reservations and logistics, to ensure your safari tour runs smoothly from beginning to end. Your tailor made safari may combine a self-drive or guided holiday with a fly-in safari, Indian Ocean beach location or luxury train journey. And remember, we can combine your dream destinations with any number of exciting activities, and your own interests – to create your ultimate African safari holiday itinerary.

Tailor made safaris and tours are our speciality, and we have been creating unique custom made tours and safari itineraries for discerning travellers since 2007. We are an independent full service safari and tour operation in Southern and East Africa.

**We take pride in our meticulous planning and co-ordination of all your travel arrangements.**

**We will make all your reservations and take care of all the logistics – safaris, accommodations, transfers, air charters, sightseeing tours, hire cars, train reservations – and any activities you may wish to enjoy along the way.**

# Equipment

All Bush whisper's equipment reflects our experience in the industry. Our newly purchased four man tents, that only accommodates two people ensures luggage space . Tents, chairs and camping beds or mats are provided on tour. For hygienic food preparation, we have efficient cooking facilities and an inventive bush cook (guide).

## BUSH WHISPER'S VEHICLE

Our safari vehicles are designed for your best comfort and experience. The pop up roof and leg space will contribute to the comfort of your experience. We do have a trailer to make our camping easier. The vehicle has long range tanks and also maps and a library for the clients.

Our custom designed vehicles and trailers are ideally suited for photographic safaris in the African bush.
