## NOTES

- A yellow fever vaccination is valid 10 days after vaccination.
- Yellow fever vaccination certificates are not required for passengers under the age of 1 year.
- Existing and new yellow fever vaccination certificates are now valid for life. The World Health Organisation announced that as of 11th July 2016, countries can no longer require travellers to show proof of re-vaccination or a booster dose as a condition of entry. *NOTE*: this regulation may not be honoured by all border authorities during the transition phase.
- Passengers over the age of 1 year travelling from **Kenya** or **Tanzania** to **South Africa** require a valid yellow fever vaccination certificate. *NOTE*: transit passengers (more than 12 hours) in Tanzania require a valid yellow fever vaccination certificate.
- Transit passengers (less than 12 hours) in **Kenya** or **Tanzania** shall not be checked for compliance with the certification.
