

# BORANA

ALL FOR CONSERVATION

Borana is home to the original inspiration for Pride Rock from the iconic Lion King animated film.

Borana Lodge is a retreat for honeymooners, families with children of all ages, and those looking for adventure.

## FACTS

The animation team from Disney visited Borana Conservancy in the early 1990s as part of a Kenya-wide research safari ahead of the release of the 1994 The Lion King film.

The Disney film crew stayed at Borana Lodge for 10 days in 2017 ahead of the re-make of the classic film.

Scenery from Borana Conservancy is used in the background of the 2019 Lion King film.

Pride rock is a leisurely 1h30 min walk or a 15 min game drive from Borana Lodge.

Accessible on horseback, by foot, mountain bike or vehicle.

Pride Rock promises panoramic views of Borana and Lewa Wildlife Conservancy, perfect for both sunrise and sunset.

It is estimated that there are only around 20,000 lion left in the wild.

Borana Conservancy is partnered with Lion Landscapes, a conservation and research organisation focused on the preservation of lion, large carnivores and their habitat.

All retained earnings from Borana Lodge are invested into the sustainable conservation of land, wildlife and building local livelihoods. A stay at Borana Lodge acts as a direct contribution to safeguarding the future of Kenya's lion population and their habitat.

This truly is travelling with a purpose.
