

IMVELO'S POP UP SPAS

Imvelo's ethos is to enrich the lives of those who live around us as well as our guests. As such, we have a strong link with communities around the lodges and our spa treatments fall in line with our proud tradition of empowering the community through providing jobs in tourism as our beauty therapists have been hand-picked from the surrounding community area.

Our therapists were then trained locally to provide you authentic Zimbabwean treatments in the most spectacular settings! We encourage you to enjoy one of these treatments during your stay with us, as you will not only experience some true pampering in the African bush, but you will also be further giving back to our local community.

Spa treatments are available in the comfort of guest's tents, chalets or villas and destination venues are available at each property too!

(Destinations available will vary, depending on seasonality, amount of guests in camp and time of day the treatment is requested. Please discuss this with management the day before the treatment is requested and they will do their best to ensure something special is arranged.)

Times

- The spa treatments are available throughout the day and must be booked through the lodge manager.
- Bookings need to be made the day before the treatment (by 5pm latest). Timings for destination treatments, are arranged on a case by case basis.

Rates

- Rates are quoted in USD.
- Payment methods - cash, visa and mastercards.
