Singita

- Singita guests have the opportunity to experience the Serengeti from the air aboard a hot air balloon.
- Partnering with our preferred supplier in the region, Serengeti Balloon Safaris, this experience offers guests a unique way to experience the Serengeti at sunrise.
- Guests are driven from their Singita lodge or camp to the balloon launch site.
- A welcome and safety briefing is followed by watching the hot air balloon inflate.
- Climb aboard and rise as the sun rises to view Africa aloft.
- The balloon floats in whichever direction the winds guide while your pilot precisely controls the altitude of the balloon - sometimes at treetop height, at other times ascending to 1 000 feet to see the enormity of the reserve.
